

SATYA/ADMN/CIR/2023-24/153

February 22, 2024

Dear Parents,

Namaskar!

It gives me immense pleasure to introduce myself as the new Director Principal at Satya School.

I am passionate about education and have an experience of over 25 years in this field. During my career, I started as a Biology teacher, later became Head of the Department, IB Coordinator and a Principal over the last 10 years. I have managed teams and established new academic curricula in my previous assignment. During my tenure at Satya School my constant endeavour will be to work along with staff and parents to ensure that every **Satyans** thrives and maximizes their potential.

We will work on creating an environment that will support them in expressing their uniqueness, in enhancing their talent whilst tempering their personality with the ethical compass of integrity and empathy so that they go out into the world as young contributing global citizens, making a difference. Our effort will also be to concentrate on developing a sense of wonder and the ability to think creatively.

We intend using data and technology to identify and address gaps, use best practices like gamification of concepts, thinking routines, experience-based learning, virtual reality to sharpen the saw, to raise their curiosity and ensure that academic rigour is in place. Training of staff too will be an area of focus so that the teaching process is enhanced and students look forward to their classes.

Other than ensuring physical fitness and mental health, sport plays an important role in building skills like resilience, teamwork and leadership, hence one of our aims will be to strengthen the **In-school and afterschool sports programme** offering choices and discipline of practice.

Satyans have started achieving accolades in interschool competitions, Olympiads and the like. I assure you that we will continue this legacy and train our students, adding to our bouquets. A number of programmes like Financial Literacy, Robotics and Innovation, Astronomy, Entrepreneurship are in the pipeline. You will be receiving more on this as the new academic year progresses.

Finally, I would like to close by saying, I believe in establishing a relationship with parents. I am open to meeting you and heartily welcome any positive inputs you may have which will benefit our students. A series of coffee meetings with different grades are being organized in the coming week and you will receive communication on the same.

I feel confident that the future for **Satyans** will be very bright and we will see them achieve their dreams and fly high!

I look forward to sharing our successes in the times ahead!

Warm regards,

Manisha Malhotra
Director Principal
