SATYA/ACAD/CIR/2024-25/152 **March 6, 2025**

Dear Parents

Namaste!

Over the years, as many of you know, Team Satya has been dedicated to creating an environment that nurtures curiosity, fosters growth, and empowers our students to reach their fullest potential. Based on valuable feedback from our students, parents, and educators, we are enhancing some of our programs to ensure we continue to provide the best possible learning experience.

As we embark on the exciting journey of the new academic year 2025-26, we are thrilled to introduce a variety of innovative initiatives that will further enrich our students' learning journey. These programs have been carefully crafted to spark curiosity, nurture creativity, and offer hands-on learning opportunities that inspire and engage.

1. Space Lab & Space Programme will allow students to build rocket models, create telescopes, design Mars and Moon rover models, and craft astronaut costumes, fostering a love for space science and technology.
2. Collins Reading Programme will enhance students' literacy, comprehension, and critical thinking skills through structured reading activities and engaging book discussions.
3. Raz Science Programme for Grades I-V will introduce interactive experiments and real-world scientific concepts to make learning science fun and engaging.
4. Extramarks for Grades VI-XII provides a personalized digital learning platform that offers tailored study materials and interactive assessments aligned with the curriculum.
5. TurtleDiary.com for Grades I to V will help reinforce foundational Math through interactive games and fun activities for younger students

Thank you for being such an essential part of the Satya family. Your continued partnership is what makes our shared vision for your children's education a reality.

Further, kindly find appended below the details of the fee to be paid for the new session in light of the above.

We are excited for the journey ahead and look forward to achieving even greater milestones together.

Thanks and regards

Manisha Malhotra
