

SATYA/ADMN/CIR/2025-26/150

February 09, 2026

Dear Parent,

Namaste!

Over the years, as many of you know, Team Satya has been working hard and is committed to creating an environment that nurtures creativity, fosters growth and empowers our students to reach their fullest potential. Based on feedback from parents, students and educators, we are consolidating the programmes initiated last year.

These programmes as well as the new initiatives in implementation, will give our students the edge. The following programmes will continue next year as well:

- 1. Collins Reading Programme** which has resulted in enhanced reading levels of our students.
- 2. Space Programme & Projects** will continue as these are enjoyed by the students and will expose them to look at careers in this new frontier.
- 3. Extremarks for Grades VI-XII** will continue as it provides a personalized digital learning platform that offers tailored study materials and interactive assessments aligned with the curriculum.
- 4. Artificial Intelligence** as a subject will be introduced as a part of the curriculum across grades VI to X.

Thank you for being such an essential part of the Satya family. Your continued partnership and support will help us realize our shared vision for your children.

Further, kindly find appended below the details of the fee to be paid for the new session in light of the above.

Warm regards

Manisha Malhotra
Director Principal
