

SATYA/ACAD/CIR/2026-27/020

May 08, 2026

Dear Parent,

Namaste!

This is to inform you that as per the advisory received from the Government Health Department vide Memo No. 12/2-2026 ACD (9) dated 10.03.2026, girls who have completed 14 years of age but not celebrated their 15th Birthday by 1st March 2026 are being encouraged to receive the HPV Vaccine, which helps protect against cervical cancer.

The vaccine is being made available free of cost at Government Health Institutions and nearby authorised health facilities.

Parents are advised to consult their healthcare provider, if required, and may consider availing this vaccination for their child in the recommended age group.

The school is sharing this information purely as a public health advisory in the interest of student well-being.

Warm regards

Manisha Malhotra
Director Principal
